Overview

(((Life, Mathematics, and Rhythm)))

The words "Softer Diagram" reflect the method in which London-based beat-maker **2tall** (Jim Coles) built his latest tour de force. The "softness" is represented in the **innocence and simplicity** of the beats which embody arrangements constructed like **sacred geometry**, hence the "diagram".

To quote a classic phrase, **"This is a journey into sound"**. This 12-track journey of synth, drumscales and polyrhythms begins with contemplation of peace in the form of **"A Word"**. Electro bangers like **"Grazing On Empty"**, **"The Most High"** featuring **Kashmere** and **"Harbour Lights"** follow, injecting a pulse aimed at the futuristic dance-floor.

Over the **two years** of assembly, like a true **beat prophet**, 2tall managed to illustrate our times using modern technology and deep insight. This is realized in **"Raise Ya Head"**, **"Distant Shadows"**, **"Ritual"**, **"Song for Simon Cowell"**, **"Trains"** with **E. Saint**, **"Garden Child"**, and **"Winter Theme"**. As a bonus L.A.-based Producer **Dday One** re-sows the seed of the **"Garden Child"**.

This release is available in **limited vinyl (500) + Digital** format. Design + photography is inspired by the song titles, which are **exclusive to this release**.
